

C House

Daniele Arcomano
architect

Location: Rome, Italy

Client: Private

Typology: Housing

Activities: Architectural design, furniture design, detailed design, clerk of works

Area: 120 mq

Year: 2014

Flat renovation in a '60's building.

The aim to connect the lobby with the living room is achieved through a long ash wood wall that contains a lighting panel, a sliding door to the kitchen area and a large bookcase with TV area.

The studio room is divided with three sliding doors from the living.

Custom made furniture define the character of the main bathroom, along with the stone-like tiles in warm colours.

Bathroom in Florence

Daniele Arcomano
architect

Location: Florence, Italy

Client: Private

Typology: Housing

Activities: Architectural design, furniture design, detailed design

Area: 6 mq

Year: 2013

A custom made furniture cuts in two zones the narrow bathroom and shield the wc zone from the entrance eyeview. Another furniture is under the window and provides space for towels.

EOS medical centre

Daniele Arcomano

architect

Location: Rome, Italy

Client: EOS medical centre

Typology: Health, work spaces

Activities: Architectural design, furniture design, detailed design, clerk of works

Area: 200 mq

Year: 2012

Remodelling of a reception for a new medical centre in Rome through a complete furniture design made in birch wood. The aim was to divide the total height of the room and mark out in a different way the waiting area and the working area, unifying in the same wooden structure all the needs for storage and lighting, hiding technical systems behind the panels.

EOS medical centre

Caprarola theatre

Daniele Arcomano

architect

Location: Caprarola (VT), Italy

Client: Uniproject s.r.l.

Typology: Theatre, culture

Activities: Concept design

Area: 600 sqm

Year: 2012

The concept starts from the need to cover the existing walls and ceiling for sound insulation. The wood design define a unified and warm image of the theatre with small structural intervention. The walls are made in Topakustik panels and perforated panels to allow retroillumination. The false ceiling is acoustic reflective. The wood panels allow smoke evacuation where required.

S House

Daniele Arcomano
architect

Location: Ronciglione (VT), Italy

Client: Private

Typology: Housing

Activities: Concept design (Living room pavillion, kitchen and dining area, exterior fence)

Area: 45 mq

Year : 2011

The extension pavilion double the living room surface. The roof is bended on the diagonal of the room and tilts towards the sky; the copper cladding helps the pavilion integrate the surrounding landscape.

Typology: Housing

Activities: Architectural design, furniture design, detailed design, clerk of works

Area: 110 mq

Year: 2011

Custom made furniture define the character of the main bathroom: teak veneer and travertine top interact with the stone like tiles. The shower zone has a darker rock tiles.

The main bedroom has a walk-in closet behind the bed and a small study area divided by a sliding door.

POLIS housing design

Daniele Arcomano

architect

Location: Monterotondo (Rome), Italy

Client: POLIS self constructing cooperative

Typology: Housing design

Activities: Concept design (with Annamaria Ottaviani, architect)

Area: 5500 sqm site area, 1000 sqm flats area, 200 sqm cohousing area

Year: 2011

The self constructing project is composed of a 10 flats building and a cohousing space in a separate building.

The focus of the design was to find easy solutions for self constructing the building.

The walls are externally insulated. The steel structure of the balconies is separate from the building walls to avoid loss of thermal insulation and allows an easy assemblage.

Uniproject s.r.l. headquarters

Daniele Arcomano

architect

Location: Viterbo (VT), Italy

Client: Uniproject s.r.l.

Typology: Offices

Activities: Architectural design, lighting design, cor-ten steel meeting room detailed design, building site consulting

Area: 250 mq

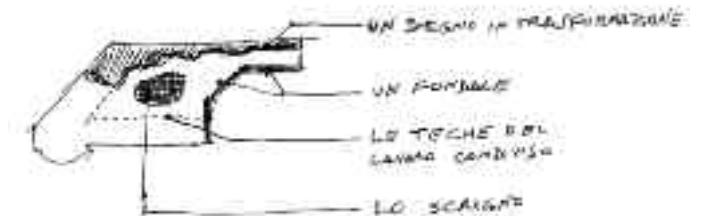

Year: 2010

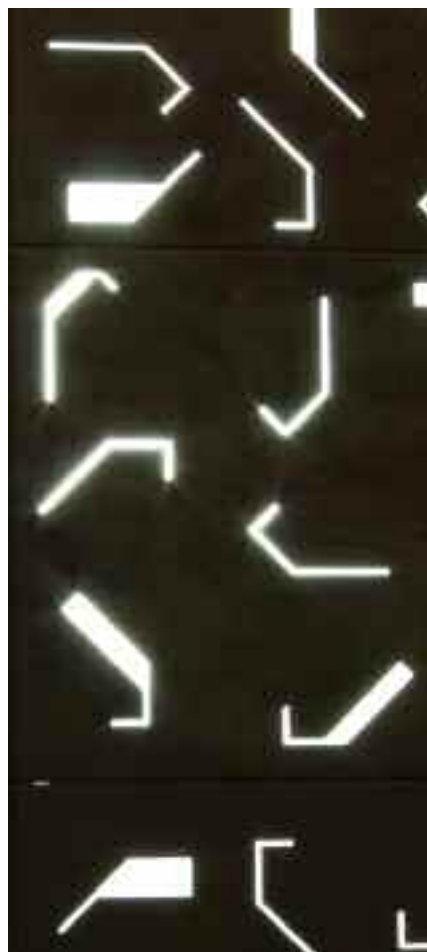

The space is defined by a central fulcrum, a cor-ten steel meeting room.

A jagged line wall defines reception, toilets and storage rooms.

All the blind spaces are illuminated with Solarspot sun tubes.

Directional and operations offices are in a row behind glass walls and receive natural light from the continuous windows.

Estetica AR.GO. beauty centre

Daniele Arcomano

architect

Location: Rome, Italy

Client: Estetica AR.GO.

Typology: Health, commercial

Activities: Architectural design, furniture design, detailed design, clerk of works

Area: 100 mq

Year: 2010

Warm atmosphere and relaxing light: these are the main goals of the design.

An osb panel is set along the wall containing shelves for beauty products and indirect lighting.

Natural stones are contained in a board on the floor.

A fountain in the lower part of the reception shelf diffuses water sound.

The treatment rooms have a recessed ceiling with dimming light, except in the wellness room where the suspended ceiling has a sky-like LED lighting.

Ceramica Cielo S.p.A. headquarters

Daniele Arcomano

architect

Location: Fabbrica di Roma (VT), Italy

Client: Ceramica Cielo S.p.A.

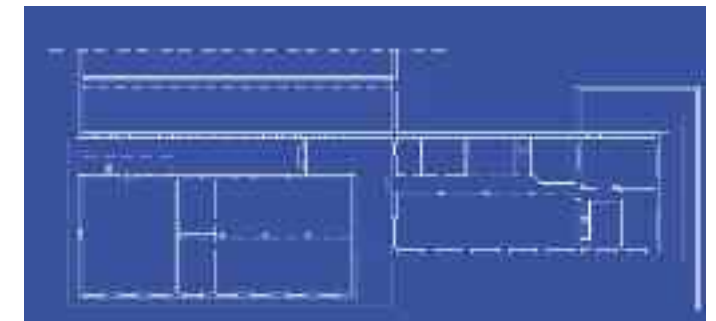

Typology: Offices

Activities: Architectural design, lighting design, furniture design and choice, detailed design, building site supervising (with Floriana Cannatelli, architect and Paolo D'Arrigo, designer)

Area: 1000 mq

Year: 2006-2008

An impluvium is the focus of the concept design. Natural light enters in all the collective spaces from the patio: waiting room, meeting room and exhibition room. Operations and directional offices are on the exterior facade. Distinguish feature of the entrance hall is the slate stone reception desk. The hanging sheet metal "seagull wings" lead to the exhibition room, where they divide the high vertical space and hide conditioning system.
